**Step 6: Click on the dropdown arrow and then click on “IBM Watsonx”.**

**Step 7: Log in again using your IBM ID. (IF THIS STEP COMES)**

**Step 8: Close the Welcome window.**

**Step9: This is the homepage, scroll down a little click on create a project icon.**

**Click on Create a new project**

## Step10: Define your project title , click on Scroll down.

The screenshot shows the 'Create a project' form in IBM watsonx. The form has a sidebar on the left with '+ New', 'Local file', and 'Sample' options. The main content area is titled 'Create a project' and 'Define details'. It contains a 'Name' field with the text 'Generative\_PromptLab.' highlighted by a red box. Below the 'Name' field is a 'Description (optional)' field with the placeholder text 'What's the purpose of this project?'. Below the 'Description' field is a 'Tags (optional)' field with the placeholder text 'Add tags'. At the bottom right of the form are 'Cancel' and 'Create' buttons.

## Step 11: Click on Create.

| One day, Motu finds an old lamp while cleaning their house. When he rubs it, a genie appears and offers to grant three wishes. Motu wishes for unlimited samosas, Patlu wishes for a peaceful town, and for the last wish, they ask for happiness for all their friends. But the genie goes wild and causes chaos in Furfuri Nagar. In the end, with Dr. Jhatka's help, they trick the genie back into the lamp and peace is restored. | Generated output appears here. |

Give me Summary of Shinchan in 5 lines

1. Shinchan is a popular Japanese manga and anime series created by Yoshito Usui, featuring a mischievous 5-year-old boy named Shinnosuke "Shinchan" Nohara.  
2. The story revolves around Shinchan's daily life, his interactions with his family, and his adventures in his neighborhood, often involving humorous and absurd situations.  
3. Shinchan's parents, Hiroshi and Misae Nohara, are often frustrated by their son's mischief and antics, while his grandfather, Grandpa, is a lovable but eccentric character who often indulges Shinchan's whims.  
4. The series is known for its irreverent humor, satirical commentary on Japanese society, and its unique art style, which combines traditional manga elements with a

Context:

Title: "The Impact of Climate Change on Global Agriculture"

Author: Dr. Jane Smith

Date: January 1, 2024

Summary: This document explores the effects of climate change on global agriculture, focusing on changes in temperature, precipitation patterns, and extreme weather events. It discusses the potential impacts on crop yields, food security, and agricultural economies worldwide. The author, Dr. Jane Smith, is a renowned climate scientist and agricultural economist.

Key Points:

1. Rising temperatures and altered precipitation patterns are expected to affect crop growth and productivity.

2. Increased frequency of extreme weather events, such as droughts and floods, can lead to significant crop losses.

3. The impacts of climate change on agriculture are not uniform across regions; some areas may experience benefits, while others face severe challenges.

Adaptation strategies, such as developing climate-resilient crop varieties and
